

Aircraft parameters: structural mass fraction = 0.55; autonomy enabled

Sizing mission (piloted): range = 50 nm; 3 passengers; reserve type = Uber (2-nm diversion distance)

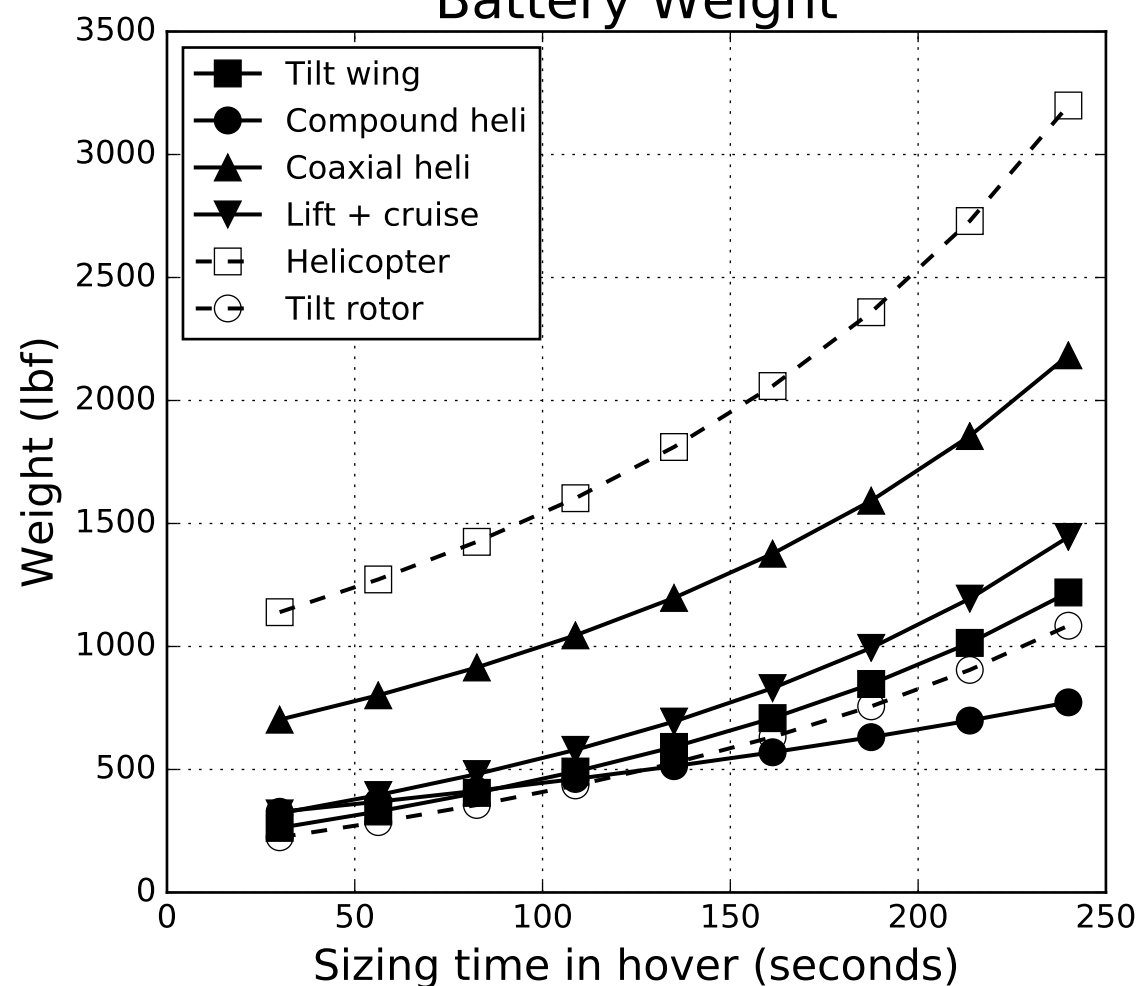

Revenue mission (piloted): range = 30 nm; 2.0 passengers; 30s hover time; no reserve; charger power = 200 kW

Deadhead mission (autonomous): range = 30 nm; 0.0 passengers; 30s hover time; no reserve; deadhead ratio = 0.2
